

Friday 15th October 2021

The UK will host the 26th UN Climate Change Conference of the Parties (COP26) in Glasgow on 31 October - 12 November 2021.

As a school, we are committed to reducing the effects of climate change. To show our support for the climate change conference, the school Eco-Committee has asked that all children create a green heart that can be displayed around school next week and throughout the climate change conference dates. This heart can be created in collage, paint or coloured in. The Eco-Committee are running an assembly next week to explain what the conference is about.
